

How to make gold in Hearthstone with minimal effort

People usually ask me how do I get gold every expansion to spend on adventures or packs. I only spend 3500g. You usually get most common cards and after that you only get dust and a rare, epic, or legendary card.

WHAT DECKS SHOULD I PLAY?

Generate random decks for each class New Deck -> Pick a class -> Choose -> Let Custom Deck checked -> Choose -> Done

Do not waste your time researching internet decks unless you play competitive ranked or you like doing it.

WHAT GAME MODE SHOULD I PLAY?

Always play games in Ranked Mode because you get the Golden Class Portrait reward after 500 wins. I always play Standard. If you are like me you should disenchant every single card from obsolete expansions. Wild mode is not that fun for casual players because of the over-powered combo and face decks. Overall, Standard Format has decks that are balanced.

WHAT SHOULD I DO EVERY DAY?

Finish your daily quests as fast as possible. Don't worry about your stars or rating. You will always stay at rank 20 and get the reward at the end of the season. My goal is to get you the best amount of gold for minimal effort. After that, win once in Tavern Brawl. You will get a free pack each week from the current expansion.

HOW DO I PLAY THE GAME?

Always play the biggest cost minion that you have in your hand. Use spells and your minions to get rid of enemy minions and make favorable trades. At turn 5 evaluate the game and if you don't have any minions on the board and your opponent is winning press Esc -> Concede.

TIPS AND TRICKS

If you get the "Play 30 minions that cost 2 or less" quest, make a deck with only 1 cost minions.

If you get the "Play 15 Murlocs" quest, make a deck with all the murlocs you have. It doesn't matter if you lose. Your goal is to complete the quest.

If you get the "Watch a friend win in spectator mode." and you don't have any friends. Just concede a lot of games in casual mode and add people to your friend list.

Arena is good if you get more then 3 wins every time, but for me it is a lot of effort and I just save the gold.

There is also a "pity timer" for legendary cards. You will usually get a legendary card from a specific type of packs, every 40 packs. I don't bother with it, is better to just hoard gold for new expansions.

If you want more gold, you can get the 10 gold every 3 wins, for a total of 100 gold per day. But I can't be bothered to do that either.
